Our Family and History:

At Casa Don Roberta / 3 Tres Tequila we believe in the value of authenticity. We are one of the main producers of tequila and owners of one of the last distilleries operated and managed by Mexican hands; a company run by three members of the founding family that started it all in 1924, as we are convinced that tequila is a drink that has to be made by understanding the spirit and voice of the land. Thus, our tequila tastes of patience, of devotion. Not only because of the years the plants wait to be harvested, but because of the dedication with which they must be cared for as they grow.

Master Distiller:

Hand crafted by Stella Anguiano, one of Mexico's premier female Master Distillers. She started her career with some of the most prestige's Tequila houses in Mexico, since then, she has mastered her craft with the Orendain Family making Don Roberto, Prospero and 3 Tres Tequila
